### First Secular Carmelite Congress in Karnataka-Goa Province (India)

---

Members of the eight Secular Carmelite communities and groups of the Karnataka-Goa Province (India) met in Mysore from October 30 to November 1 at the shrine dedicated to the Infant Jesus to celebrate their first Secular Carmelite Congress. Here the Fathers also undertake other pastoral activities, such as formation for youth aspiring to Carmel and other events to promote religious life among women.

With the motto, «It is time to walk», the Congress provided an opportunity to delve into topics that are specific to the Secular Carmel, the Constitutions, and Holy Mother Teresa. Around 80 participants from the eight communities of the Province were accompanied by the friars who are their Assistants, Father Charles Serrao, OCD – the Father Provincial, some provincial counselors, as well as the General Delegate for the Secular Carmel – Fr. Alzinir Debastiani, who after the Congress continued his visits of the OCDS communities of Mangalore, Goa, Mumbai, etc.

The closure of all the celebrations of the 5<sup>th</sup> Centenary of the Birth of Saint Teresa at the Provincial level also took place at the Congress, its highest point being the celebration of the Eucharist on October 31. The Bishop of Mysore presided and many Discalced Carmelite friars concelebrated, together with clergy from other congregations. Members of some of the region's Teresian women's congregations were also present at the event. After Mass several religious and cultural activities allowed children, youth, and religious to honor Holy Mother with dance and regional music on this feast day.

All in attendance admired the interesting logo of the Secular Carmel of the Province, designed for this occasion and commemorating the canonization of Louis and Zélie Martin (see photograph), as well as many other fruits of this first Provincial OCDS Congress, which was an opportunity to exchange experiences and consolidate fraternal bonds among the communities as well as relationships with the friars, who received expressions of gratitude on the part of the Seculars for this activity which favored the growth of the Secular Order in the Province.

## Blessing of the first monastery of Discalced Carmelite friars in Zambia

---

The Discalced Carmelites received a new gift from our Holy Mother, Saint Teresa of Jesus, during the fifth centenary of her birth, with the foundation of this new Carmelite presence. After 17 months of work on this mission in Zambia, the first missionaries have managed to build the first monastery in the diocese of Chipata, with help from the General House and the Manjummel province.

This first monastery, dedicated to Saint Teresa of Avila, was blessed on Sunday, 9<sup>th</sup> August, on the feast of Saint Edith Stein, by the Bishop of Chipata (in Camilala, to the east of the province of Zambia). Assisting at this memorable event was Fr Prasad, the Provincial of the Manjummel province, and Fr George Tambala, the Definitor General for Africa. Fr George Tambala blessed the chapel of the monastery and celebrated the first Holy Mass in it on 8<sup>th</sup> August. Four heads of the local police, the Vice-Minister and other political dignitaries also took part in this event. This monastery is the first religious presence in Lwnagwa Valley, where the people are practically abandoned by the authorities and the volunteers for being in a special geographical and sociological context.

The inhabitants of this area belong to the Nyalugwe and Ansenga tribes. It was our first missionaries who began a serious evangelization accompanied by an improvement in their conditions of life. The major part of their time is occupied with this, formation in the faith and the organization of small Christian communities. The people are very open and simple, but their life is a constant fight against nature and wild animals, which has given them a fairly special character. At the present moment they come from five villages to fetch water from our friars' well.

## Teresa of Jesus and what is «human» - International Congress at the Teresianum in Rome

---

**November 4-6, 2015.** Many proposals have sprung up concerning the thought of Teresa of Avila during the V Centenary of her birth (1515-2015). These were the purpose of the International Congress organized for the 4<sup>th</sup> to the 6<sup>th</sup> November in the Teresianum Pontifical Faculty in Rome: to evaluate the content of all these in the light of the sensitivity of our contemporaries, to see how Saint Teresa in her time attracted her contemporaries and today attracts our contemporaries, to see the way in which she dealt with so many of the layers of our human universe, in a continuum between daily life, spirituality and mysticism.

Experts coming from the most diverse of horizons: from Spain to France, from Italy to Switzerland, from Burundi to Malta presented Saint Teresa in three aspects (Experience / doctrine / experiences-expressions) from the point of view of linguists, psychology, anthropology and phenomenology.

Starting with the category of what is human, which is a constant in all contemporary reflection, from philosophy to theology, Teresa was presented as a story and face of God, for being an untiring traveler along the tracks of our history, and also because of her explicit desire that mysticism be converted into a universal experience in the heart of God's people. Since she was so human and, at the same time, able to start us on the experience of the mystery, capable of «attracting souls to so high a blessing» (*Life* 18:8), she is capable of inspiring and of being a model *par excellence* for the Christian of today.
